Ridge** 

OMIX-ADA, Inc.

Established in 2005, Rugged Ridge® has become synonymous with quality Jeep parts and accessories. As a brand from Omix-ADA, an industry leader in Jeep® restoration and replacement parts, Rugged Ridge® has the pedigree and quickly became a household name among Jeep® and off road enthusiasts. With over 3,000 product developed and manufactured to date, Rugged Ridge® continues to add hundreds of new products each year to satisfy the Jeep® and off road enthusiast's desires to personalize their Jeep®. Over the past nine years, Rugged Ridge® has developed many unique and patented items, which sets us apart from other manufacturers in the market. Items like the Modular XHD bumpers, modular snorkel, X-Clamp, Hurricane fender flares are just some of these. Tested and proven by Rugged Ridge's engineering team and employees, you can trust that Rugged Ridge products are the perfect fit for your Jeep®.

BUY WITH CONFIDENCE

We take pride in building quality products and back them up with a minimum 5 Year Limited Warranty so you can buy with confidence and have peace of mind.

A FEW WORDS ABOUT PRODUCT SAFETY

The Omix-ADA®, Rugged Ridge®, Outland Automotive® and Alloy USA® brand products illustrated in this catalog are generally intended to increase the utility and enjoyment of your off-road capable Jeep® or street rod. We hope this catalog will help acquaint you with our featured products as well as the broader offerings in each of our product families. Before installation, please take a moment to review the safety information and installation instructions accompanying your product. Safety information for particular products is summarized in this catalog but is not intended as a substitute for your review and understanding of actual product instructions and warnings! Important safety information is generally preceded by one of three signal words indicating the relative risk of injury. The signal words mean:

⚠ WARNING

A hazardous situation which, if not avoided, could result in death or serious injury. **You can be killed or seriously hurt if you don't follow instructions.**

⚠ CAUTION

A hazardous situation which, if not avoided, could result in minor or moderate injury. **You can be moderately hurt and also may suffer property damage if you don't follow instructions.**

⚠ NOTICE

Careful attention is required to this instruction or operation but does not generally relate to personal injury. Damage to your product or other property may result if you don't follow instructions in their entirety.

We hope you enjoy your Omix®, Rugged Ridge®, Outland Automotive® and Alloy USA® purchases and are here to help if you still have questions after reviewing this safety information and instructions. See Customer Service contacts included with your Limited Warranty.

PROP. 65 INFO FOR CALIFORNIA RESIDENTS:

WE MAKE JEEPS ROCK!

Today, Rugged Ridge® serves as one of the most notable and leading Jeep accessory sources. As a division of Omix-ADA, the market-leader for replacement and restoration Jeep® parts, Rugged Ridge has an established pedigree in the enthusiast market.

With the emergence of the Jeep® Wrangler (JK) in 2007, the market has since then exploded with new consumers who are looking for turn-key Jeeps that are pre-loaded to fit their off-roading needs. Now merging form, function, and style into one, Rugged Ridge offers the convenience of 11 restyling packages, allowing you the choice from simple upgrades to building your dream "take me anywhere" Jeep®.

These Jeep® restyling packages offer the most up-to-date and innovative products on the market that'll gear your Jeep® with everything you need to take on the trails in no time at all. Conquering rocky or vicious terrain? No problem! Tromping through sand dunes in the Sahara? Don't sweat it! Rugged Ridge wants to give you the confidence to believe you can go anywhere and do anything. It's time to unleash your inner trailblazer! Where does yours take you?

**BUY WITH CONFIDENCE, MINIMUM 5
YEAR WARRANTY ON ALL PRODUCTS**

Modifying the suspension of your vehicle to improve off road capabilities involves certain risks. The modified vehicle may handle differently than as factory equipped including increased ride-height; reduced lateral stability and risk of roll-over or other accident. Also, owner's choice of larger tire and wheel combinations may require additional braking force or increased stopping distances.

- Failure to drive this vehicle safely may result in serious injury or damage. Avoid sharp turns or abrupt maneuvers. Do not drive the vehicle under any speed or maneuvering conditions which may cause the vehicle to trip, roll, lose traction or compromise your ability to safely brake in an emergency.
- Familiarize yourself with all vehicle manufacturers and Rugged Ridge® warnings, instructions and limited warranties before driving this modified suspension vehicle. Follow recommended maintenance procedures and routinely inspect your vehicle components for unusual wear or off road damage.

NOTICE: Copies of Rugged Ridge® suspension and other products instructions and warnings are available at RuggedRidge.com

EXPLORATION PACKAGES

07-15 Jeep® Wrangler (JK)

AVAILABLE FOR 2-DOOR & 4-DOOR MODELS

Close your eyes—now imagine trekking through the world’s roughest terrain. Envision spending your weekend navigating through sand dunes in the Sahara desert, climbing the rockiest of mountains or trudging through the deepest of water crossings to see what new journey waits on the other side before the sun sets across the horizon. All this and more is possible with the Exploration Package deal from Rugged Ridge. Designed to outfit your Wrangler with the most up-to-date and innovative products on the market including our new Drakon Wheel, Hurricane Flat Fender Flares, Sherpa Roof Rack, and XHD Modular Snorkel, now you’re prepared to have the most ultimate off-roading experience of your life. It’s time to inspire your imagination, unleash the adventure within, build your confidence in blazing new paths, and immerse yourself in new experiences. Possibilities are endless with this adventure-based package which has molded form, function, and style to offer you everything you could need for your next journey. Go beyond your imagination. Where does yours take you?

ROOF RACK AND SOFT TOP FOR THE PRICE OF JUST ONE!

The Exo-Top™ is an innovative new design that for the first time ever combines the joy of top-down driving with the utility of a roof rack, taking convenience, function, and style to new levels by allowing Jeep owners the ability of conveniently lowering, raising or removing the Jeep's soft top with ease without having to unload gear from the roof-rack cargo. By combining the soft top and roof rack, the Exo-Top™ allows owners to experience a Jeep to its full potential for camping, off-roading, or any lifestyle hobby they may have. This new top also features an innovative Sun Slider® retractable function which allows the top to slide back with the release of just two latches, creating an open-top experience for owners without the hassle of getting out of the driver's seat. Integrated into the 350-lb. capacity roof rack is an advanced externally suspended soft-top design that fastens using a series of Velcro straps along the perimeter bars of the roof rack. The pulling force applied by the Velcro helps to tighten and shape the soft top. Offered for both the two- and four-door configurations, the Exo-Top™ features a patent-pending design that is a direct bolt-on application with no drilling required for installation.

Benefits:

- Externally suspended replacement soft top integrated with a roof rack – so you get two products for the price of one.
- Innovative Sun Slider retractable roof easily operates from the convenience of the front seat.
- Soft top operation without unloading gear
- Multi-position top configuration not available in any other top system
- Frees up much needed storage space
- Offers patent pending design with industry leading five year warranty
- Unique aggressive styling

HD TIRE CARRIER KIT *New!*

Our HD Tire Carrier features an aggressive off road design, is constructed from heavy duty cast aluminum, and offers an easy to install, no drill solution that effectively reduces wear on your tailgate and tailgate hinges. By replacing the factory hinges with the tire carrier and upgraded spindles using the factory mounting points, the Jeep owner has now the ability to operate both the carrier and tailgate simultaneously without any hassle. This design also incorporates an adjustable wheel mount. The heavy duty tire carrier can be used with either stock or aftermarket rear bumpers. Patent Pending.

HURRICANE FLAT FENDER FLARES, SMOOTH FINISH *New!*

Jeep® enthusiasts can now get that aggressive off-road look and tire clearance with the complete newly designed Hurricane Flat Fender Flares by Rugged Ridge. A combination of popular fender flare styles, this design was inspired by earlier concepts and the 1941 Willys MA. The double bolt pockets provide a modern twist on the traditional flares and come with two sets of durable corrosion resistant fasteners (stainless steel and black) allowing the consumer to customize their own look. The Hurricane Flat Fender Flare is constructed of durable thermoplastic material, which creates a flexible yet very strong fender flare. Rugged Ridge uses the injection molding process for these fender flares, which produces a better fitting, more consistent flare. The Hurricane Flat Fender Flare will really set you apart from the crowd. Patent No. D712,324

ECLIPSE SUN SHADE - FULL SIZE

Craving that top down experience in your Jeep®, but still want protection from harsh sunlight? This full-length shade protects both front and rear passengers from the sun while offering a "top-down feeling". With mesh construction, this sun shade is held between the windshield and the rear crossbar eliminating the need for a header channel. The built-in elastic straps allows this design to retain access to the Jeep's top clamps, so you can keep the shade in place and still use the factory soft or hard top.

Our Eclipse Sun Shade is a mesh shade that installs in between the front portion of a JK sport bar providing an open air experience while protecting passengers from the sun. Works with soft tops & hard tops while allowing access to the top clamps without uninstalling the shade. This sun shade does not require a separate header channel. Installs quickly and easily with a simple bungee system that is sewn into the sun shade. It comes with a small mesh carrying bag for storage when not in use.

WINDOW STORAGE ROLL BAG

Protect your soft top windows from scratching and other damage with a window storage roll bag from Rugged Ridge®. This easy to use storage bag stores your rear windows using a soft internal material and a heavy duty exterior fabric for the ultimate in protection. The internal fabric is placed between the windows to prevent scratching and window on window contact. Simply place the windows in between the fabric and gently roll the windows into an easy to store "window roll". The rolled up bag can now be easily installed to the rear of your sport bar with attached nylon straps and buckles. This window storage bag solution is a must for those soft top owners who want to keep their windows out of harm's way and prolong the life of their soft top. Each storage bag is backed by an industry leading five year limited warranty.

TIRE COVERS

Rugged Ridge® Tire Covers are custom designed to fit today's most popular sized tires. Constructed of durable vinyl coated polyester fabric. Colors match other Rugged Ridge® soft accessories. Please measure tire diameter.

Tire Diameter	Black	LRAP	Gray	Denim Black	Diamond Black
27-29"	12801.01	18.99	12801.09	12801.15	12801.35
30-32"	12802.01	22.99	12802.09	12802.15	12802.35
33"	-		12803.09	12803.15	12803.35
35-36"	-		12804.09	12804.15	12804.35

Note: To ensure proper fit, measure the diameter of the tire you are covering and pick the appropriate tire cover size listed above.

HALF DOORS

Looking for an economical way to replace your factory full steel doors with a set of half doors? Rugged Ridge® Half Doors help keep the elements out while maintaining that open air experience. The Half Doors are constructed from paintable, impact resistant, thermoplastic outer door skins mounted to rigid powder coated internal steel door frames. The Half Doors interchange easily with the factory steel doors and require no body modification for installation. They feature lockable door handles, an internal storage pouch, waterproof seals, OE style hinges, and mirror mounts. The Half Doors are also available with optional upper soft doors.

Features and Benefits

- Impact resistant thermoplastic black ABS material with enhanced UV protection.
- Matte finish is easily paintable for custom match factory look.
- Specially reinforced internal steel frame provides strength and is powder coated to resist corrosion.
- The textured inner ABS panels provide a finished look and feature a grab handle and storage pocket.
- Each door has a weather tight seal to keep out moisture and reduce wind noise.
- OE Style Hinges provide a factory look and are designed to last.
- Durable and lockable paddle handle.
- Matching soft upper doors available for all season protection from the weather.
- Designed to work with your original mirror or Rugged Ridge® replacement mirrors.

WARNING

This product is intended to provide added off-road convenience and utility to your vehicle. This product is not intended to provide occupant containment or protection in the event of an accident or roll-over. Further, on road use may involve increased risk of serious injury in the event of side-impact accidents.

TO REDUCE RISK FROM THESE TYPE OF INJURIES:

- Always wear seat belt and shoulder harness for all vehicle occupants.
- Keep arms and body inside vehicle.
- Drive safely, read and understand all manufacturers warnings and product instructions before installation.

TUBE DOORS

Like the “doors off” feel but also want the added convenience and utility of having doors on the trail? Rugged Ridge® Tube Doors are constructed from durable 1.5 inch mandrel bent steel tube that is E-Coated primed and then textured powder coated for a long lasting finish. Tube doors help increase visibility when climbing obstacles and trail riding. The Tube Doors interchange easily with the factory steel doors and require no body modification for installation. They are light weight and small enough to be stored easily in back of the vehicle when not in use.

Features and Benefits

- Thicker than most other tube doors with durable 1.5” diameter steel tubing construction, providing added strength and great looks.
- E-coat and textured powder coat for corrosion resistance.
- Designed to work with original mirror or for added convenience permanently install a pair of Rugged Ridge® replacement mirrors.
- Half doors are easy to install and remove and are small enough to be stored in the vehicle.
- Durable and lockable paddle handle.
- Full door frame and rattle free.

**GUNNY
APPROVED™**

Custom fit for maximum protection!

Custom fit one piece rear liners.

Raised nubs to hold liners in place.

Full cargo area protection!

The only floor liner with patented "Deep Tread" Technology!

These floor liners are a totally new concept that combines all the best features of a deep rib floor mat and the 'old style' liners. Precision engineering using state of the art technology ensures an exact fit to the shape and contour of your vehicle's floor. The deeply molded chevron-shape tread pattern channels dirt, mud and snow away from the driver to keep shoes and pant legs clean. It also contains the movement and sloshing around of any trapped water. The high perimeter wall offers a large footprint and maximum interior protection and containment. Unlike ordinary liners that utilize an inconsistent vacuum thermoform process and slippery lower grade plastic, these liners are high pressure injection molded from OE-quality thermoplastic that looks and feels like rubber and provides a nonslip surface. Raised ribs on the bottom provide maximum retention and keep the liner in place. The unique self-sealing floor hook attachment helps to prevent dirt and moisture from getting through. Easy to remove and clean. Simply hose them off and go! The mat actually reseals itself around the hook. Patents D627,285 & 8,163,369.

CENTER CONSOLE ARMREST PAD FOR 11-15 WRANGLER

This easy to use arm rest pad/cover from Rugged Ridge® provides protection and comfort all in one! Constructed of heavy duty neoprene (wet suit material) with an added layer of padding for the arm rest, this slip on cover provides an extra soft place to put your arm while driving. Since it covers the entire top of the arm rest, this cover also provides added arm rest protection from pet claws, dirt and sticky fingers. Installation is easy with an elastic band; no drilling or tools required. Black Neoprene compliments your vehicle's interior and will match custom fit Neoprene seat covers. Limited 5 year warranty.

Center Console Armrest Pad 	Part #
11-15 Wrangler, Black, Neoprene	13108.01

ARM REST PAD FOR 07-10 WRANGLER

Rugged Ridge®'s patented Arm Rest Pad bolts directly into existing JK mounting screws-no need to remove the OE lid. Steel brackets ensure durability. Uses either Neoprene or tough vinyl coated polyester fabric with a dense foam center for comfort, performance and a great look in the vehicle. Allows for full opening and closing of the console lid. No drilling required. Patent# D585,674

CUSTOM FIT NEOPRENE SEAT COVERS

Protect your Jeep's® interior with these Custom Fit Neoprene Seat Covers from Rugged Ridge®. These covers are constructed of durable 100% neoprene with no filler fabrics creating the best fitting, longest lasting neoprene seat cover available. Neoprene (wetsuit material) is a great fabric to protect your seats from dirt, water and whatever mother nature can throw at you! Each cover is custom tailored for your Jeep's® original equipment seat style making your seats look like they have been recently reupholstered.

Installation is easy with special designed elastic cords, nylon straps and hooks that attach to your seat and to the seat cover mounting points. All seams have been double reinforced for strength and a special backing fabric is used on the seams for added protection against rips and tears. Available in black on black, grey on black, red on black and tan on black to complement virtually any Jeep® interior.

RUGGED RIDGE® CARGO SEAT COVERS

Protect your seats and increase interior storage with our NEW Cargo Seat Covers! Constructed of heavy duty 600 denier polyester fabric with a special PVC liner on the seating area, these seat covers provide great protection from water, dirt and spills while giving your Jeep® a great look. Each cover has been specially designed with special elastic and Velcro straps to optimize the fit on your OE or aftermarket seat. The back of the cover incorporates five multi-use pouches, plus one sunglass pouch with elastic tool holding loops, and one knife / multi tool pouch that can also be used for iPod® and cell phone storage. Each of these seven pouches are easily removable and provide the needed storage every Jeep is lacking. Front Cargo Seat Covers are sold individually and are available in black and tan. Front Cargo Seat Covers are universal and fit most Jeep® applications from 1976-2015. They can be used with side air bags on 2007-2015 JK models.

RUGGED RIDGE® OVERHEAD STORAGE CONSOLE

The Rugged Ridge® Overhead Storage Console instantly turns the area underneath your top into usable storage space without any interference or modification to your Wrangler. Works with soft tops, hardtops, the top up or down. The Overhead Storage Console is a fully enclosed storage compartment that installs easily without any tools or drilling. It is constructed from durable blow molded high-density polyethylene (HDPE), so it is safer and lighter than steel. A non-skid pad is adhered to the inside of the console to help keep your gear from sliding around, and a mesh storage net helps keep it safely stowed yet easily accessible. The console measures 41.5 x 2.5 x 6.5 inches and offers more than 450 cubic inches of storage.

Rugged Ridge® Overhead Storage Console	Part #
07-15 Wrangler	13551.14

TRAIL BAGS

Rugged Ridge® has the answer for your onboard storage needs. These soft-side storage bags feature heavy canvas construction and oversized zippers. Great for carrying recovery gear, spare parts, camping gear, clothes, or any other necessity for a wheeling trip. Rugged nylon straps keep the bags in place during even the most insane wheeling. Make the most out of your roll cage with a full complement of Rugged Ridge® storage bags. These bags are easy to install and remove and work with both hard and soft tops.

ALUMINUM HOOD CATCHES

The Rugged Ridge Aluminum Hood Catches were built as a strong direct replacement for the OE catches that degrade and fail after years of off-road abuse. Available in black powder coated and durable silver finishes, these hood catches incorporate an adjustable tension rod guaranteeing a precise fit. Installation is a breeze for any do-it-yourselfer with just basic hand tools. The catches were designed to be a bolt-on solution using the same mounting points as the factory hardware. XHD ALUMINUM BUMPER SYSTEM

The XHD Aluminum Bumper System was designed to be a whole new look while being extremely light weight allowing you to save on fuel and the need for front suspension spacers. The bumper is all aluminum but uses the current steel XHD D-rings. Each bumper comes with a built in top filler plate. Each new aluminum XHD has cutouts and mounting points for the factory fog lights and a great looking "Jeep® Style" front slat look that will make this bumper stand out. If you want to run a winch, simply remove the filler plate and attach the optional JK winch mounting plate (steel plate). The XHD Aluminum Bumper is approximately 80lbs+ lighter than the average steel off road bumper. Government studies show a fuel economy benefit of 2% for every 100lbs of weight savings. Patent NOs 7,703,834 & 8,393,656

Available Components:

- Aluminum center section with steel D-rings
- Stubby Bumper Ends - aluminum
- JK winch plate - special design for this bumper
- Special aluminum over-rider with front slope

Note: Aluminum XHD & Steel XHD components are not interchangeable.

Just How Light is the Aluminum XHD Bumper?

Front Bumper	Weight
Aluminum XHD - Standard Configuration*	26.9lbs
OE Bumper	35.7lbs
Brand X Off Road Bumper	110lbs & Up

*Standard Configuration: Bumper Base, Filler Plate & D-Rings. The optional Hoop Over-rider, Stubby Ends & Winch Plate make the maximum overall weight of the bumper 62.6lbs.

D-Ring Pair, 3/4" (F)	11235.01

XHD ALUMINUM REAR BUMPER PODS

Taking the lightweight theme further, we have developed steel inner framed Aluminum Rear Bumper Pods. These new lightweight pods still allow for over sized tires but take a huge chunk of weight out of the bumper. (The picture shows the rear pods installed with the enclosed steel D rings for the XHD Rear Tire Carrier). Each pod can be used with tire carrier part #11546.20 to hang those 35-inch+ tires shown in picture with the optional center step. The XHD Aluminum Bumper Pods are approximately 40lbs+ lighter than the average steel off road bumper. Government studies show a fuel economy benefit of 2% for every 100lbs of weight savings.

XHD MODULAR BUMPER SYSTEM

THE MOST ADVANCED, TOUGHEST, MOST FLEXIBLE BUMPER SYSTEM EVER CREATED! THE ONE & ONLY ORIGINAL.

No other bumper can give your Jeep® this many looks. The modular design provides dozens of different looks and styles, you can build the exact bumper of your choice! Custom designed for the 2007-2015 Jeep® Wranglers, each component maximizes the oversized look of the vehicle. All components are constructed of heavy-duty textured black powder coated steel with a tough E-Coat undercoating or polished, no rust, prime 304 stainless steel for the ultimate look! These tough finishes will provide years of heavy-duty use. Matching rear bumpers are available for a complete look. Patent NOs 7,703,834 & 8,393,656

HD TIRE CARRIER KIT *New!*

Our newest tire carrier features an aggressive off road design, is constructed from heavy duty cast aluminum, and offers an easy to install, no drill solution that effectively reduces wear on your tailgate and tailgate hinges. By replacing the factory hinges with the tire carrier and upgraded spindles using the factory mounting points, the Jeep owner now has the ability to operate both the carrier and tailgate simultaneously without any hassle. This design also incorporates an adjustable wheel mount. The Heavy Duty Tire Carrier can be used with either stock or aftermarket rear bumpers. Patent Pending.

Description	Part #
HD Tire Carrier Kit, Black, 07-15 Jeep Wrangler	11546.50
HD Tire Carrier, Hinge Casting	11546.51
HD Tire Carrier, Wheel Mount	11546.52

XTREME HEAVY-DUTY (XHD) REAR BUMPER SYSTEM FOR 07-15 WRANGLER

Versatility has no limits with our XHD Rear Bumper System. Features easy installation, amazing looks and two reinforced heavy-duty D-Ring attachment points. A special "inner mounting plate" provides an extremely secure mounting point - strong enough for off-road use! The two-piece design allows use with and without tire carrier options. Heavy-duty powder coated steel design looks great but is extremely tough. Mount on the optional Heavy Duty Tire Carrier and you can hold up to a 35-inch tire.

XHD TIRE CARRIER MOUNT FOR 07-15 WRANGLER

Unlike previous designs, Rugged Ridge's GEN II Swing & Lock Tire Carrier maintains full mobility of the rear tailgate and eliminates the cumbersome two-stage opening process present in other designs. Using the factory latch mechanism and a reinforced spindle, Jeep owners have the ability to mount up to a 37-inch tire and operate both the carrier and tailgate simultaneously without any hassle.

XHD Tire Carrier Mount	Part #
GEN II Swing & Lock Tire Carrier 07-15 JK Wrangler	11546.25

TIRE CARRIER LINKAGE

Has opening your rear tailgate become a burden since you added a swing out tire carrier? Has it become easier to crawl over the rear seat to grab your gear, than struggling with the tire carrier? The Rugged Ridge® Tire Carrier Linkage Kit eliminates this issue and makes accessing the cargo area quick and painless. Once installed, the linkage mates the tire carrier to the tailgate, so both open in a single fluid movement. The Tire Carrier Linkage is designed to work with Rugged Ridge® XHD, rear bumper and tire carriers, but will also work with most other aftermarket tire carriers. No drilling is required to mount the linkage to the tailgate, but some minor drilling is required to mount the linkage to the tire carrier. (Not needed with 11546.25)

Tire Carrier Linkage	Part #

THIRD BRAKE LIGHT EXTENSION

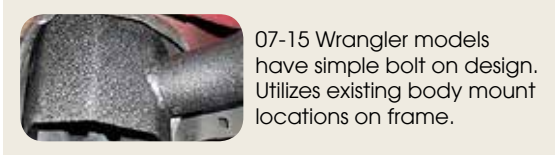

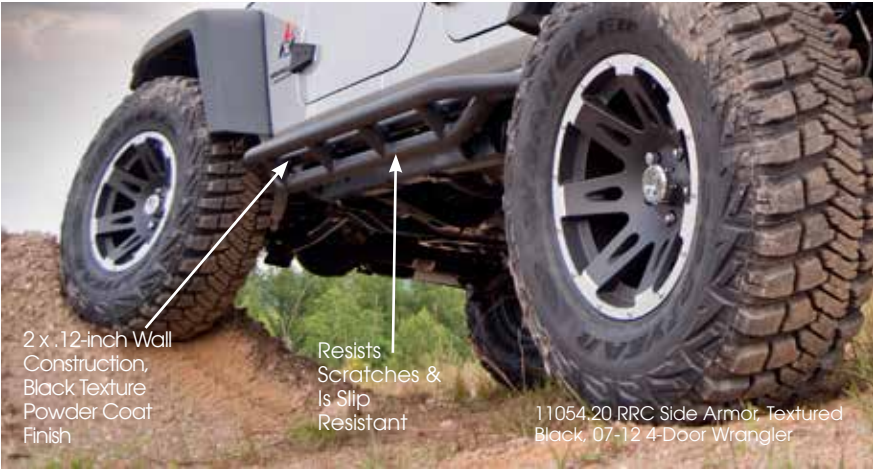

The third brake light extension kit from Rugged Ridge is the brake light solution JK owners have been waiting for. Our brake light extension kit is fully adjustable in 1" increments and works with the OE spare tire carrier and most aftermarket units as well. It is made from durable black powder coated steel. It moves the third brake light up above oversized spare tires from 33-inch to 42-inch. Off road antenna mount or send flag mount integrated into design.

Third Brake Light Extension	Part #
Third Brake Light Extension, 07-15 Wrangler	11546.23

RRC SIDE ARMOR

Keep your rocker panels from being beaten to a pulp on the trail with Rugged Ridge® Side Armor. Built from heavy-duty 2 x 0.120-inch black textured powder coated steel tubing, these guards will take the beating that was meant for your sheet metal. JK models feature a simple bolt-on design that utilizes existing body mount locations for a secure, rattle free installation. The black texture finish resists scratches and gives a slip-resistant surface for door entry. Sold as a pair and includes all necessary installation hardware.

07-15 Wrangler, 2-Door Pair	11504.21

RRC ROCK SLIDERS

This true Rock Crawling design puts protection tight up under the side of your Jeep® while adding a special side “hoop” to block those large outcroppings. A special no drill frame mounted design provides secure, bounce-free installation while keeping the mounting points above the bottom of the frame for greater ground clearance. Each RRC Rock slider mounts to your Wrangler using a simple bolt on frame mount design for ease of installation and extra durability.

SIDE TUBE STEPS

Complete the look with a set of Rugged Ridge® tubular tough duty side steps. Available in 3-inch round, 4-inch round, and 4.25-inch oval diameter sizes. The large 4.25-inch oval and 4-inch round tubes provide a much cleaner look and are not “dwarfed” by oversized tires and oversized body style features of the 07-15 Wrangler. Rugged Ridge® Stainless Tube Steps feature primed 304L, .05-inch wall stainless tubing polished to a mirror finish. Rugged Ridge® painted steel tube steps feature special E-coated, .07-inch wall steel that is “thick source” powder coated for a tough chip resistant finish. All Rugged Ridge® tube steps feature a truly custom fit with installation brackets constructed of durable 3/16-inch powder coated steel for long life and years of flex-free use. Each tube step features special UV treated no-slip step pads with 5 mounting pins. These step pads are preinstalled on top of the tube - no exposed metal to rust. All 07-15 Wrangler models are no drill designs.

Modeled after our XHD Modular Bumper System, but with the more budget-oriented consumer in mind, Rugged Ridge® set out to create an affordable yet strong and functional bumper system. The All Terrain Modular Bumper System is built from black powder coated steel and has a renewed focus on style and functionality, allowing owners to design and build a bumper to fit their specific needs. The new Double X-Striker is an option currently exclusive to the All Terrain Modular Bumper System. A unique feature of this bumper is that it can be upgraded from a non-winch to a winch bumper. A removable steel plate covers the winch area until the consumer is ready to add a winch. All Terrain bumper options are not compatible with any of the XHD bumpers. Patent NOs 7,703,834 & 8,393,656

FRONT TUBE BUMPERS

Rugged Ridge® bumpers have been engineered to the industry's most exacting specifications. All powder coated bumpers are "E-coated" to ensure a no rust finish and can take small rock chips and still maintain their rust protection. All Rugged Ridge® front and rear bumpers feature smooth ground welds for an unbelievable look and further rust protection. This exclusive smooth grind process virtually eliminates small weld "pockets" that never seem to get full paint coverage and tend to rust over time. Need to mount a winch on your Jeep®? The winch mount version of the Rugged Ridge® Front Tube Bumper features a built in winch mounting plate. Nothing extra to buy! Finally, all Rugged Ridge® Bumpers feature welded end caps rather than plastic end caps.

SHERPA JK ROOF RACK SYSTEM

The new Sherpa Roof Rack System by Rugged Ridge® is an easy bolt-on solution for two and four-door Wranglers that requires no modifications to the body of your Jeep®.

The unique tilt feature allows you to access your soft top with ease, and the hard top or freedom panels can be removed without removing the rack system. As an added bonus, the forward mounting bar acts as an integrated light bar. The Roof Rack System accepts the Rugged Ridge drop down light bracket (PN 11232.22) to mount up to four lights.

Remove your Freedom Panels without having to move the roof rack.

Designed to allow removal of hard top without moving the roof rack.

Unique roof rack function allows you to easily put your soft top back.

EXO-TOP™

ROOF RACK AND SOFT TOP FOR THE PRICE OF JUST ONE!

The Exo-Top™ is an innovative new design that for the first time ever combines the joy of top-down driving with the utility of a roof rack, taking convenience, function, and style to new levels by allowing Jeep owners the ability of conveniently lowering, raising or removing the Jeep's soft top with ease without having to unload gear from the roof-rack cargo. By combining the soft top and roof rack, the Exo-Top™ allows owners to experience a Jeep to its full potential for camping, off-roading, or any lifestyle hobby they may have. This new top also features an innovative Sun Slider® retractable function which allows the top to slide back with the release of just two latches, creating an open-top experience for owners without the hassle of getting out of the driver's seat. Integrated into the 350-lb. capacity roof rack is an advanced externally suspended soft-top design that fastens using a series of Velcro straps along the perimeter bars of the roof rack. The pulling force applied by the Velcro helps to tighten and shape the soft top. Offered for both the two- and four-door configurations, the Exo-Top™ features a patent-pending design that is a direct bolt-on application with no drilling required for installation.

Fits All 2-inch Receivers, Each	11237.01

WARNING

To avoid risk of serious injury or death:

- Review & follow all required towing options, weight limitations and recommendations in Towing section of your Jeep® Owners manual.
- Never exceed smallest GVWR of your trailer towing system (Jeep® vehicle, hitch, draw bar and ball). Receiver draw bar and ball included with this kit are Class 2 rated (trailer GVWR 2000 lb {less than symbol} 3500 lb). Vertical tongue weight {less than symbol} 200 lbs.

LOCKABLE SPARE TIRE MOUNT BIKE CARRIER

This easy-to-use bike rack mounts to any emergency tire mounting studs. The bike rack carries two bikes directly off the spare tire. It is constructed of 2-inch powder coated steel tubing for maximum rust protection and durability. The bike clamp features rubber pads to protect your bike's finish. The carrier comes with two keys for the locking mechanism. Fits wheel off sets from 2-5/8-inch to 6-inch. For all Jeep® outside spare tire applications.

Bike Carrier	Part #
Spare Tire Mount Bike Carrier, Each	11237.10

FRONT SKID PLATE

Custom designed to protect the steering components on your Jeep® Wrangler, this overbuilt skid plate is a must for those off road adventures. Constructed of durable 1/4-inch powder coated steel with a rust resistant E-Coating, this skid plate is designed to take whatever the trail throws at you! Designed to fit with all Rugged Ridge® front bumpers (looks amazing with the XHD bumper system!) or all factory front bumpers. This skid plate provides protection for all front steering components including the very expensive electric sway bar disconnect system found on Rubicon models. The easy to install frame mount design incorporates special gussets and welded brackets to ensure long life and great off road performance.

RUGGED RIDGE® SHOCKS

Rugged Ridge® uses only nitrogen charged gas shocks for all their kits. which provide a better ride both on and off road. By using a Rugged Ridge® lift kit and matching gas shocks, you optimize the suspension's capabilities giving you a better ride both on and off road.

Shock features include:

- 150 PSI pressurized nitrogen gas
- Internal valving - the internal orifice will rotate when the piston moves more than 2 inches automatically adjusts to make the ride as smooth as possible
- Twin tube construction to lower heat build up and protect the shock from off road damage
- Bonded Iron 14mm piston with extra chroming - provides for a longer, rust free life
- Includes polyurethane bushings
- Limited lifetime warranty on the shocks

RUGGED RIDGE® STEERING STABILIZERS

Rugged Ridge® recommends upgrading your current steering stabilizer or adding a stabilizer on all lifted Jeep® vehicles. The Rugged Ridge® Steering Stabilizer dampens out the roughness of the highway and the vibration from running larger tires and wheels. Rugged Ridge® Hydraulic Stabilizers also make it easier to move those larger tires and wheels both on and off road. These noticeable handling improvements are well worth the small investment!

ORV™ Steering Stabilizers

ORV™ Steering Stabilizers	Part#
ORV™ Hydraulic Series Steering Stabilizer, 07-15 Jeep® Wrangler 2 & 4-Door	18475.03

WARNING

INVERTED DRAG LINK

The inverted drag link is designed to restore the steering geometry on lifted Wranglers. The re-designed drag link is inverted or flipped up over the knuckle to increase ground clearance and reduce bumpsteer. This part may reduce need for a drop pitman arm. NOTE: a 13/16 inch drill bit is required for installation.

Inverted Drag Link

FRAME BRACE KIT

The heavy duty frame brace and trackbar drop bracket kit from Rugged Ridge has been designed to reduce front end movement and shimming on lifted JK Wranglers. The frame brace includes a trackbar drop bracket to help maintain the proper steering geometry. The kit is recommended on any JK Wrangler with 3 inch or more of lift and an adjustable trackbar. Welding is required for installation.

Frame Brace Kit

Frame Brace Kit	Part#
07-15 Wrangler, Frame Brace Kit	18205.25

LIFT KITS

What to Buy:

When looking at which kit is best for your application you need to determine two important things: size of tire and use of vehicle. On the 2007-15 JK Wranglers, 2.5-3.5" coil kit is designed for up to a 34" x 12.5" x 16" tire and moderate off road use. The 4"-5" coil kit is designed for more severe off road use and up to a 35" x 12.5" x 16" tire.

Rugged Ridge® 2.5"-3.5" Coil Spring Lift - With shocks part # 18415.50

- The most complete kit available on the market for JK.
- Includes four powder coated and E-coated 5160H hot rolled bar, and 5/8 inch coil springs that are set to factory rates, eliminating any possibility of future sag.
- Setting coil springs to factory rates gives you the best on road ride possible and the ability to use a larger tire.
- Each kit includes a rear track bar brace to strengthen the original track bar mount.
- Four Door JK's will get on average a 2.5 inch lift. Two door models will get up to a 3.5 inch lift.

BUY WITH CONFIDENCE
MINIMUM 5 YEAR WARRANTY

WARNING

Rugged Ridge® 4"-5" Coil Spring Lift - With shocks part # 18415.60

- Includes 4 powder coated, E-coated 5160H hot rolled bar 5/8" coil springs, set to factory rates for longer life and better ride!
- Each kit includes a rear track bar brace to strengthen the original track bar mount.
- Kit includes sway bar disconnects for more articulation off road.
- Uses tough, over built extended control arms for added strength and performance.
- In most cases control arms are longer than factory to adjust for caster.
- 4-Door JK's will get on average a 4 inch lift. Two door models will get up to a 5 inch lift.
- Due to the changed pinion angle, we highly recommend a new drive shaft be installed when using any 4 inch or greater lift kit on a four door Wrangler. A new drive shaft will be required on any 2007-15 2-Door Wrangler due to the shorter wheel base.
- All 4 inch Kits require a drop pitman arm. (Sold separately: Part# 18006.55)

07-15 Jeep® Wrangler JK/Rubicon, 4WD (2 & 4-Door models)	Kit w/o Shocks	Kit w/ Shocks	Max Tire Size HxWxD	Max Wheel Offset	Est. Install Time

4"-5" Lift, 07-15 Jeep® Wrangler, 2 & 4-Door*	18360.22	18415.60	35"x12.5"x16"	4.5"	8 Hrs

Note: due to vehicle weight, the 2-Door models may receive an additional 1" lift over 4-Door models

* Will require a drop pitman arm 18006.55. Sold Separately

18401.50 Kit includes: (4) coil springs, rear track bar bracket, rear bump stop bracket, rear track bar brace, hardware kit

18401.60 Kit includes: (4) coil springs, (2) lower front links, (2) lower rear links, (2) rear bump stop brackets, (2) rear bump stop spacers, front track bar bracket, rear track bar bracket, (2) front double disconnect end links, (2) rear extended sway bar end links, rear track bar brace, hardware kit

CV EQUIPPED DRIVE SHAFTS

Reduce or eliminate driveline vibration with a CV-equipped driveshaft. constant velocity (CV) joints use two U-joints (double cardan style) in the place of a single U-joint. This smooths out the driveline angle and reduces vibration due to extreme lifts or driveline changes. Works with stock to 6 inch lift.

CV Equipped Drive Shafts	Part #
07-15 Wrangler, Front 2/4-Door	16592.22
07-15 Wrangler, Rear 2-Door	16592.21
07-15 Wrangler, Rear 4-Door	16592.20

DROP PITMAN ARM

This drop pitman arm helps reduce the angle of your drag link so it reduces the bumpsteer created when a 3.5-inch to 6-inch suspension lift is installed.

WARNING

Drop Pitman Arm	Part #
Drop Pitman Arm, Power Steering, 07-15 Wrangler	18006.55

Modifying the suspension of your vehicle to improve off road capabilities involves certain risks. The modified vehicle may handle differently than as factory equipped including increased ride-height; reduced lateral stability and risk of roll-over or other accident. Also, owner's choice of larger tire and wheel combinations may require additional braking force or increased stopping distances.

- Failure to drive this vehicle safely may result in serious injury or damage. Avoid sharp turns or abrupt maneuvers. Do not drive the vehicle under any speed or maneuvering conditions which may cause the vehicle to trip, roll, lose traction or compromise your ability to safely brake in an emergency.
- Familiarize yourself with all vehicle manufacturers and Rugged Ridge® warnings, instructions and limited warranties before driving this modified suspension vehicle. Follow recommended maintenance procedures and routinely inspect your vehicle components for unusual wear or off road damage.
- Rugged Ridge® does not recommend combined use of body lifts with suspension or other lift devices or modification, alteration or fabrication of any Rugged Ridge® suspension product to achieve additional lift. Also be aware that most states have restrictions on height modifications for vehicles used on road. Consult your vehicle owners manual, limited warranties, the instructions and warnings accompanying this product and state law before undertaking these modifications or using your modified suspension vehicle on road. A summary of current regulations affecting modified suspension vehicles is available from www.SEMA.org.
- Always wear seat belts and/or appropriate off road restraints, reduce your speed, tread lightly® and safely enjoy your off road vehicle.

Rugged Ridge® is proud to introduce the toughest new design in custom wheels for 2007-15 Wranglers. This hub-centric design exactly centers the wheel over the hub providing proper balance, clearance for brake rotors, steering components and suspension. A better fit, with no wheel vibration! Stainless steel button-head socket cap screws around the perimeter of the outer wheel face give a great 3-piece look, and you accessorize with our optional trim ring. Available in five finishes: satin black powder coated, satin black powder coated with machined lip, silver powder coated, dual-stage polished chrome, and gunmetal. The durable powder coated finish gives an ultra-hard finish for long life and a great look. The chrome finish uses a dual-stage process to give a deep reflective mirror-like shine that commands attention. Rugged Ridge® wheels have been independently tested and certified to meet/exceed SAE J2530 standards for wheel strength and durability. Limited lifetime structural warranty and one year finish warranty (see warranty information for details and limitations). Backspacing is 4.53 inch with a -12mm offset. Patent pending.

New modular center cap design for the 18 inch & 20 inch XHD wheels allows for multiple looks - full center cap or low profile. Patent Pending.

⚠ WARNING

Improper wheel/spacer installation and torquing may degrade handling and result in wheel separating from vehicle.

TO REDUCE RISK OF INJURY OR DAMAGE ALWAYS:

- Torque lugs using vehicle manufacturer's recommendations & sequence, assuring clean threads, wheel cold and compatibility of lugs nuts to wheel surface.
- Inspect & re-torque lugs after 50 miles (80 Km.) of installation or wheel service.

RIM PROTECTORS FOR XHD WHEELS

Trim rings are available in either satin black powder coated or polished stainless steel. These trim rings are a great way to protect the wheel lip and tire bead, and allow you to change the look of your wheels with just a few bolts. For use with Rugged Ridge® aluminum wheels only.

STEEL D-WINDOW WHEELS

Legendary looks with brutally epic strength. Each Rugged Ridge® Steel D-Window wheel is stamped from heavy gauge steel and powder coated with a durable black finish. Our wheels have been engineered, tested and certified to meet and exceed the strenuous SAE J2530 standards for wheel strength and durability. Turning a million cycles at double their load capacity, these wheels are sure to withstand off-road abuse. A Jeep® isn't just a Jeep® until it's lifted and outfitted with oversized tires. All Rugged Ridge® Steel D Window wheels include a FREE polished center cap!

HEAVY DUTY TIRE SPACER

This Rugged Ridge® bolts to your existing factory spare tire mount and relocates the tire two inches up and out. Features 5x4.5 inch and 5x5.5 inch wheel bolt patterns and tough powder coated black textured finish. Caution: The tailgates on 07-15 Wrangler models are not designed to hold extra large tires. Therefore, do not use a tire larger than a 33x12.50 inch or equivalent tire with this spacer. If you want to carry a larger tire, we recommend using the XHD Rear Bumper with Tire Carrier.

HD Tire Carrier & Spacer	Part #
07-15 Wrangler, Textured Black, Each	11585.02

CAUTION: The tire carrier spacer is designed to fit tires 33" in diameter or less. Do not exceed these tire sizes.

WHEEL SPACERS & ADAPTERS

These hub centric spacers / adapters move your wheels out to help fit wider tires and give your vehicle a wider track and improve stability. Constructed of double anodized black extra thick 6061T6 aluminum for long life and extra corrosion resistance. All hardware is grade-8 for extra strength. Each part number comes as a spacer pair. Included are ten pre-installed grade-8 wheel studs, ten lug nuts and a thread locker.

CAUTION: Rugged Ridge® recommends use of wheel spacers with all suspension lifts to reduce risk of rollover or other accident associated with handling characteristics. See additional product safety information and WARNINGS at back of catalog.

STAINLESS STEEL BRAIDED BRAKE HOSES

Rugged Ridge® Braided Stainless Steel Brakes Hoses feature a tough stainless steel braided outer cover with a flexible teflon inner core that withstand trail hazards better than OE rubber hoses. They provide up to 4 inches of additional length over stock hoses, a must for any lifted vehicle! These brake hoses also improve braking performance so you won't suffer from a soft brake pedal caused by OE rubber hose expansion. Meets or exceeds DOT FMVSS-106 regulations. Backed by the Rugged Ridge® industry leading Five Year Limited Lifetime Warranty.

These great kits offer all the components you will need to complete your differential rebuild or ring & pinion installation. Complete with bearings, pinion seals, pinion shims, crush sleeve, pinion nut, ring gear bolts and marking compound.

HD DIFFERENTIAL COVERS

Indestructible! You won't break these covers, we guarantee it. Made from either 3/8 inch cast steel or 5/16 inch stamped steel, painted black inside and out, these heavy-duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle. These indestructible covers have been ".44 caliber tested" - if they can take a bullet at point blank range (don't try this at home!), they can take all that the trail has to offer. Available for most popular Dana differential types and include extra reinforcement protection for the fill plug area. All mounting hardware and instructions are included for ease of installation.

PERFORMANCE VENTED HOOD

(hood shown painted)

Inspired by Chrysler's aggressive SRT® designs, Rugged Ridge's Performance Vented Hood was engineered to provide 50 percent more ventilating surface area over similar designs, helping heat quickly escape from the engine compartment to maximize engine efficiency. Made from high quality stamped steel, the new Performance Vented Hood uses a factory inner core assuring it fits like the OE hood. In addition to fitting like a factory piece, Rugged Ridge ships each of the hoods standard with a rust preventative E-coat that's ready to be painted. Uses factory attachment points and most aftermarket accessories will simply bolt into place. Got heat? You need this hood! Patent Pending.

ALL TERRAIN FLAT FENDER FLARES

Now, with the All-Terrain Flat Fender Flares from Rugged Ridge® you can add a bigger tire option for a true off road look. You can also use in combination with a suspension lift for maximum off road performance. These exciting new flares are out-of-the-box ready to turn your street Jeep® into an off road machine. By removing your original flares and replacing them with these high clearance designs, you can run larger tires without interference from the flare. The ability to run a larger tire with little or no suspension lift means a “lower center of gravity” making your JK more stable, with the necessary ground clearance necessary for off road. With 1.5 inches less coverage in the front and 1 inch less in the rear these flares are slightly narrower than factory flares, yet still maintain proper tire coverage and aggressive looks. Constructed of a flexible UV treated high impact thermoplastic, these flares are designed for the trail and create a whole new look for your JK. Easy to install, these flares replace your factory flares, attaching to the mounting points with no drilling. Simply remove your original flares and add on the All Terrain Flat Fender Flares. The kit also includes easy to install mounting brackets that allow you to relocate and use the existing factory side marker lights.

REPLACEMENT FENDER FLARE KITS

Rugged Ridge® provides the most comprehensive replacement Fender Flare program on the market today. We have you covered when it is time to replace or upgrade your factory fender flares. Each Flare is constructed of virtually indestructible, durable, UV treated thermoplastic to provide years of service. Each replacement flare is designed to fit into your factory mounting holes for ease of installation. Just need to replace one flare? No problem. Rugged Ridge® offers individual replacements to keep your investment to a minimum.

HURRICANE FLAT FENDER FLARES

Jeep® enthusiasts can now get that aggressive off-road look with the newly designed Hurricane Flat Fender Flares by Rugged Ridge. This design was inspired by the 1941 Willys MA. The double bolt pockets provide a new modern twist to classic flares and come with two sets of durable corrosion resistant fasteners (stainless steel and black). Constructed of durable injection molded thermoplastic material, the flares rest high on the vehicle providing 2 inches more of extra clearance with an additional 1 inch of extra width for oversized wheels while on trails. Backed by an industry leading 5 year limited warranty, the Hurricane Flat Fender Flares will really set your JK apart from the crowd! Patent No. D712,324.

Get that offroad look with Rugged Ridge® Body Armor! Each Body Armor piece is constructed of black diamond plate UV treated thermoplastic for the coolest, toughest looking upgrade for your Jeep®. Each body armor attaches to your Jeep® with ultra strong 3M tape to ensure a secure fit. Have a scratch or dent on your paint? Cover it up with Body Armor! Simply fill in the scratched area with touch-up paint (to prevent rust) and install the Body Armor. You have now repaired and upgraded! Available in individual pieces or complete styling "kits", so you can customize the look of your Jeep® the way you want.

COWL ARMOR

Whenever your door limiter straps are disconnected the door can over extend causing damage to your cowl area. These new cowl covers protect your cowl area while providing a great look. Constructed of durable UV thermoplastic, these covers easily attach using 3M® automotive grade acrylic adhesive tape. Packed in pairs.

MATTE BLACK VISORS & DEFLECTORS

New from Rugged Ridge, these Rugged Ridge window visors are aerodynamically designed to reduce wind noise while channeling airflow to keep your vehicles interior free of smoke, stale air and window fogging. The special design channels rain around your window while still allowing air to flow. Tired of bugs and road debris ruining the look of your hood and windshield? The Bug Deflector takes care of that and creates a great unique look, especially when combined with the Rugged Ridge window visors. Constructed of durable scratch resistant matte black finish acrylic, these wind and bug deflectors easily install with special automotive grade tape.

MINIMUM 5 YEAR WARRANTY

SMOKED VISORS & DEFLECTORS

These smoked acrylic accessories offer the same features and benefits of our matte black visors & deflectors, but with a scratch resistant smoked OEM style finish. The special design channels rain around your window while still allowing air to flow through your windows. These no-drill deflectors allow you to drive with windows cracked open but not let rain in. These are packed in pairs on two door models or in sets of four on four door models.

Protect your windshield and hood from flying debris and bugs with this durable bug deflector from Rugged Ridge®. Installation is easy using double sided automotive adhesive tape and under hood screw attachments (some drilling required).

ALL WEATHER 12' CABLE REMOTE INCLUDED FOR ALL WINCHES

ALL RUGGED RIDGE® SYNTHETIC WINCHES INCLUDE AN ALUMINUM HAWSE FAIRLEAD

WARNING

Failure to follow these instructions could lead to severe injury or death. Consult further WARNINGS/CAUTIONS and instructions in this use/installation manual. Due to loads involved, all winching involves significant risks. To minimize risks of injury Always:

- Assure winch, mounting, cable and hook are undamaged. Vehicle, slope and conditions should not approach maximum rated pull. Leave a safety margin.
- Use supplied hook strap when spooling in or out (no load). Use gloves and keep fingers and body clear of hook, cable and fairlead during installation and all winch operations.
- Position operator inside vehicle when possible with control switch routed through window rather than door/jam. Keep others a safe right angle from cable and vehicle when winching (min. 1.5 times distance of cable). Use greatest cable length possible while keeping at least five turns around spool. • Fully engage clutch before powering cable in. Do not disengage or adjust clutch while under load. Pull in stages to avoid heat buildup and motor damage. • Never use vehicle recovery winch for persons or as hoist.

SYNTHETIC WINCH ROPE

Stronger and lighter, the two key elements of Synthetic Rope that make it the choice of competition off road vehicles everywhere. Rugged Ridge® high strength synthetic Winch Rope is constructed from genuine Dyneema SK-75 fiber imported from the Netherlands. This revolutionary fiber is the choice of off-road enthusiast worldwide. It is stronger and lighter than wire rope and never kinks or splinters! Our synthetic line is woven from twelve UV-treated strands, resulting in increased strength, and a power to weight ratio unmatched by wire rope. Each synthetic rope comes with a protective sleeve that prevents it from over heating on the winch drum, black powder coated latched hook, stainless steel thimble, and is pre-terminated for ease of installation. Synthetic rope does not store energy like steel cables, and in the event of a failure it is much less likely to result in severe injuries caused by the whiplash of broken wire rope.

Synthetic Winch Rope	Part #
Synthetic Winch Rope 11/32" x 100', Breaking Force of 16,550 lbs, Each	15102.10

ALUMINUM HAWSE FAIRLEAD

This hawse fairlead will help guide the synthetic winch rope to and from the spool. Required for synthetic rope. Not recommended for steel cable.

Aluminum Hawse Fairlead	Part #
Aluminum Hawse Fairlead, Each	11238.01

WINCH CABLE HANDLE

The winch hook handle is the perfect solution for handling a winch cable. It is constructed of tough nylon webbing with a molded sure-grip handle. Perfect for getting a good solid grip of the winch hook when free spooling cable for a recovery and a safe way to respool your cable without endangering your fingers. Just slip your winch hook through the nylon webbing and you are ready to rock!

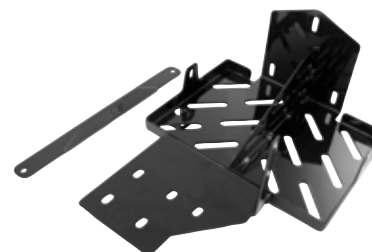

Winch Cable Handle	Part #
Winch Cable Handle, Each	15102.01

DUAL BATTERY TRAY

Outfitting a trail rig can add greater strain to the electrical system. Adding on a winch, air compressor, fog lights, driving lights, a spot light, electric fuel pump, and a stereo amp can really tax the battery. The Rugged Ridge Dual Battery Tray is a great way to combat that strain to install dual batteries. This is especially true when using a winch, which can draw big amps for an extended period. These kits are designed to mount two batteries in place of the factory single battery location. The trays and brackets feature a black powder coated finish. These are mounting kits only and do not include any wiring. A suggested wiring diagram is included.

Rugged Ridge® Dual Battery Tray	Part #
07-11 Jeep® Wrangler	11214.53

TIRE DEFLATOR KITS

Fully inflated tires are great for the road and gas mileage, but they deliver a washboard ride on the trail. Air down your tires for a softer ride and more tread grip. Rugged Ridge® offers two great tire deflator kits to fit your lifestyle and budget.

Rugged Ridge® Tire Deflator Kits	Part #
Adjustable Tire Deflator Kit, 4 Piece Kit	15104.53
Keychain Tire Deflator Kit, 4 Pieces	15104.50
Tire Deflator/Inflator with Gauge	15104.55

TIRE REPAIR KIT

Be prepared for what ever the trail throws at you! The Rugged Ridge® Tire Repair Kit is essential recovery gear for any road or trailside tire repair. The kit includes: two sturdy aluminum handles, two reamers, two needles, two Allen head wrenches, and 25 self vulcanizing tire plugs all self contained in a heavy duty storage case.

Rugged Ridge® Tire Repair Kit	Part #
Tire Repair Kit, Each	15104.51

OFF ROAD JACK HANDLE STRAP

The Rugged Ridge Off Road Jack Handle Retainer Strap pulls taut to secure the jack handle to the jack eliminating obnoxious rattle. Simply loop the strap around the jack handle and pull it tight and go! Fits most off road style farm jacks including Hi-Lift.

Off Road Jack Handle Retainer Strap	Part #
Universal Application, Black	13305.60

XHD OVERRIDER LIGHT CLAMPS

Light mount brackets for use with XHD part numbers 11540.14, 11540.16 and any other 2-2.5 inch bumper override/tubes. Easy mount design makes these a must for mounting Rugged Ridge® Lights to your bumper. Also available for smaller 1.5-1.75 inch tube sizes. Sold as each.

Light Clamps	Part #
2"-2.5" Over Rider Mount Bracket	11503.82

TRI FOLD RECOVERY SHOVEL

The Rugged Ridge® Tri Fold Recovery Shovel is a fully functional collapsible shovel that features two serrated edges for cutting or digging. The heavy duty black powder coated body is 23 inches when open and folds to a mere 9 inches. It can be stowed easily in any vehicle, but is still rugged enough for the toughest of jobs. Includes durable storage case.

Tri Fold Off Road Shovel	Part #
Tri Fold Off Road Shovel, Each	15104.42

HID LIGHTING

We mated the brilliance of high intensity discharge bulbs with the rugged construction of our traditional halogen off road lights. The result is a more efficient and powerful beam better capable of illuminating the night sky. Rugged Ridge® HID Lights are 2½ times more powerful than halogen lights and draw 60% less current than a standard 100W fog light. Our 6-inch and 5-inch HID Lights are constructed with heavy duty stamped steel housings, and are available in corrosion resistant black or stainless steel finish.

HALOGEN LIGHTING

Designed, engineered, and tested to optimize your time on the trails, our lights are constructed with heavy-duty stamped steel housings, and crystal glass lenses set in shock absorbent weatherproof rubber gaskets. The brilliant 12V 100 watt halogen bulbs slice through fog, rain or snow to help illuminate the road even under the toughest conditions. Available in round, rectangular and slim housings in either a black or stainless steel finish to best suit your application.

Rectangular lights give your vehicle a whole new look

FRONT BUMPER LIGHT BARS

Rugged Ridge® has engineered a durable and easy to install light bar that allows you to add auxiliary lighting to your factory Wrangler bumper. The light bar bolts to existing mounting holes and installs easily without cutting, drilling, or removing the bumper. With a few simple hand tools you will be able to install your light bar and mount up to three lights on your Jeep while retaining your factory bumper. Lights not included.

Front Bumper Light Bars	Part #
07-15 Wrangler, Textured Black, Each	11232.20
07-15 Wrangler, Stainless Steel, Each	11138.20

11232.20, 07-14 Wrangler

WINDSHIELD HINGE LIGHT BRACKETS

Special black powder coated or polished stainless brackets mount directly to the windshield hinge of your Wrangler. Allows for easy mounting of auxiliary lighting. Each bracket is custom designed for an exact mount and 07-15 models include a rubber gasket to protect the paint during installation/removal. Sold in pairs. Lights not included.

Windshield Hinge Light Brackets	Black	Stainless
07-15 Wrangler	11027.03	11028.03

HOOD MOUNTED LIGHT KIT

This innovative product mounts a pair of 3-inch 55-watt halogen lights directly to your factory hood latches without drilling or modification. Kit includes textured black powder coated brackets, two 3-inch halogen lights, wiring harness, relay and switch for a complete light solution.

Spare Light for Hood Mounted Light Kit	15207.72

JK WINDSHIELD LIGHT BAR

The Ultimate Light Bar for your Wrangler! This exciting new design has been created to give the durable look of a five tab light bar with features found nowhere else. Through extensive testing, this heavy duty light bar incorporates a special wind deflector below the light bar to dramatically reduce whistling and "buffeting" of your soft top. Oversized 2-inch textured black tubing attaches to your windshield mounts with no drilling. Each light bar has five light tabs for use with Rugged Ridge® lighting options (fits up to five 7-inch lights). Each light bar has been specially developed to work with Rugged Ridge® light mount brackets and/or Rugged Ridge® mirror relocation brackets. Special three piece design makes the packaging small for easy shipping. This is truly the most advanced light bar on the market!

Windshield Light Bar	Part #
Textured Black, Jeep Wrangler (JK) 07-15, Each	11232.21

LIGHT BAR LOWERING KIT

The Rugged Ridge® Light Bar Lowering Kit, allows you to mount lights lower on your light bar. Not always do you need the lights all the way on the top due to clearance issues or you want to reduce the wind resistance. The lowering kit allows you to mount up to 7-inch lights.

Windshield Light Bar Lowering Kit	Part #
Textured Black, Jeep Wrangler (JK) 07-15, Each	11232.22

SPARE TIRE LIGHT MOUNT

The new Spare Tire Light Mount from Rugged Ridge® offers a utility light mount that is easily removable for access to the spare tire, and also offers you a place to relocate the license plate from the vulnerable original location. Featuring a textured black steel construction with stainless steel hardware.

Shown with 100 watt halogen light - part # 15207.05 (Not Included)

PERFORMANCE BY RUGGED RIDGE®

STAINLESS STEEL CAT-BACK EXHAUST SYSTEM

Open up your Jeep®'s exhaust with this great looking & long lasting dual exhaust system. The 2 1/4-inch mandrel bent pipes give hot exhaust gases a smooth exit without the constrictions found in crush-bent pipes. This added flow decreases back pressure and will actually increase the horsepower of your 3.8L or 3.6L engine! This is a bolt-on system that installs after the catalytic converter to keep your emissions legal. The dual split exits feature slash cut and rounded oval tips. Each kit includes all necessary mounting hardware for an easy bolt on installation.

New!

JK HEAVY DUTY OFF-ROAD MUFFLER

Designed to deliver a more aggressive tone than the stock muffler, the off-road muffler produces a deep tone throughout the RPM range. It is designed to sit as high as possible for extreme off-road ground clearance. The exhaust tip is designed to be protected by the body frame to reduce trail damage. Stainless steel and aluminized steel construction with Black hi-temp coating insures extended durability.

EXHAUST SPACER KIT

Jeep® moved the exhaust forward on the 12-15 Wrangler. Unfortunately, on Jeeps® with 2.5-inch or more of lift that means their front driveshaft is liable to make contact with the exhaust Y-Pipe melting the CV boot and causing the driveshaft to fail prematurely. The Rugged Ridge® Exhaust Spacer Kit for 3.6L Wranglers helps move the Y-pipe further back and increases the amount of front suspension travel from 2.5 to over 5.5-inch, thus saving your driveshaft. The spacers install on the flanges between the front headers and Y-pipe. The great thing is the kit is easy to install and does not require permanent modification to the exhaust. Hardware included. Backed by Rugged Ridge's® exclusive three-year limited warranty.

Exhaust Spacer Kit	Part #

COLD AIR INTAKES

A Rugged Ridge® Cold Air Intake System can boost your performance, while helping you keep extra cash in your wallet. Our polished aluminum mandrel bent intake tube replaces the restrictive factory air box to help improve fuel economy. A black powder coated heat shield separates the filter from engine heat, dirt and debris, as cold air is drawn through a high-flow conical air filter. Our dry panel design never needs oiling, which keeps your mass airflow sensor from being damaged by excess oil! The simple bolt on installation gives you power you can feel, adding up to 10HP and 12ft lbs of torque.

STAINLESS HEADERS

Our custom Stainless Exhaust Headers are engineered to deliver improved performance. The 3.8L isn't a bad motor it just needs more air to "breathe" properly. Each complete kit includes manifolds, gaskets, hardware, clamps and easy to read instruction sheets.

Stainless Steel Headers	Part #
07-11 Wrangler w/3.8L Engine, Each	17650.53

THROTTLE BODY SPACER

The Rugged Ridge® Throttle Body Spacer raises the throttle body 1/2-inch above the intake manifold. The lift helps optimize power and performance by drawing in colder denser air, producing more horsepower and torque. Solid aluminum construction.

07-11 Wrangler 3.8L	17755.02
12-15 Wrangler 3.6L	17755.03

LOW MOUNT

PRE-FILTER

XHD MODULAR SNORKEL

Dusty trail rides and deep water fordings. –Anyone who takes their rig off-road is likely to encounter these conditions. The new Modular XHD Snorkel System from Rugged Ridge® relocates the venerable stock air intake location to help reduce dust clogged filters and the risk of hydro-locking your engine. It is also the first snorkel designed with the modular functionality of a Pre-filter Low Mount and Ram High Mount air intake design. Unlike other snorkels, you don't have to give up flexibility for functionality. Not only did we engineer our snorkel to allow the windshield to fold and doors to be removed, we built it for use with our dual battery tray, windshield light bar and windshield light mounting tabs... Because what good is having a snorkel to cross the river, if you have to leave your lights and the dual battery (to power your winch) on the other side? Note: Windshield light mounting tabs only compatible with low mount.

The Modular XHD Snorkel System comes standard with the Pre-filter Low Mount. The Pre-filter Low Mount relocates the air intake to just below the windshield and draws cool air from outside the hot engine compartment. The optional Ram High Mount design allows the air intake to be extended up an additional 21" to the top of the windshield. The two air intake mounts are easily interchangeable to give you the modular functionality best suited to your needs. The system is manufactured from premium thermoformed plastic, mandrel bent aluminum and hi-temp silicone connection hoses. Built in manual drain valves channel away excess water to prevent it from entering the intake system. It installs with minor modification to the fender, but without the major cutting and surgery that other kits require. The new lower air cleaner box installs in place of the factory unit, so you don't have to "hack and tap". Just attached the factory upper air box, chose from the Pre-filter Low Mount or Ram High Mount design and go! Patent #'s D687,071 & D687,072.

STAMPED STEEL BUMPER

Rugged Ridge's new Stamped Front & Rear Bumpers features a tough powder coated texture with a sturdy 11 gauge stamped steel construction. The stamping process used allows for the most advanced styling on the market, creating a bumper lighter than most aftermarket steel bumpers and is designed to work with all popular winch models.

- Stamping process allows for most advanced styling in the market
- Stamping also allows for efficient use of materials resulting in a bumper lighter than most aftermarket steel bumpers
- Injection molded crush can covers add modern styling while keeping vehicle within factory spec (front bumper only)
- Stamped in knuckles strengthen vulnerable bottom edge while providing a rugged and tougher look
- Rear bumper accepts 7/8-inch D-Rings
- Front bumper uses the factory tow hooks
